JOB REFERENCE: REACT DEVELOPER

Dear KC Lee, I am excited to apply for the Full Stack Developer position at VELAONE, a role recommended to me by Christian Caracach. With three years of experience in web development and a strong foundation in JavaScript, React, Node.js, Express, and SQL, I am eager to contribute my skills and grow within an innovative team.

Currently, I work as a Frontend Developer at Ávila Cash, building dynamic interfaces with React, modifying the API in C#, and managing SQL Server databases. I have also developed freelance projects, including administrative software for Pescetti Software, and various personal web applications that demonstrate my adaptability and passion for technology.

I am proactive, self-taught, and disciplined, which has allowed me to quickly acquire new skills. I would love the opportunity to bring my experience to VELAONE and discuss how I can contribute to your team. My resume is attached, and I look forward to the possibility of an interview.

Thank you for your time and consideration.

Sincerely,
Diego Escalona
